

CARNEGIE HILL *neighbors*

Because it's our home

As Carnegie Hill opens back up for business, a safe workplace and convenient shopping experience are paramount. We suggest :

- Establishments offer FREE LOCAL DELIVERY within Carnegie Hill of in-stock items
- Establishments offer in-store appointments, private shopping and styling available to 10 people or fewer, or at what equates to 50 percent occupancy
- Establishments provide accommodation to clients wishing to shop via phone or Zoom, with remote styling appointments available as an add on service
- Establishments sanitize and/or quarantine merchandise (customary three days) that has been handled in-store, or recently returned by clients
- Establishments freely provide hand sanitizer to all clients, regardless of purchase
- Establishments provide adequate face covering with the understanding that nose and mouth remain covered while on duty
- Establishments ensure a 6-foot distance between staff and clientele, and between other clientele present
- Establishments conduct daily health assessments logged for each employee, with questionnaire and temperature check at the start of every work day
- Establishments conduct regular disinfection and log cleaning of all equipment, surfaces, restrooms and common areas with date, time, and scope
- Before re-opening, all stores train personnel on new protocols and safety guidelines, and log participation at each training session
- Immediately notify authorities of any employee or customer who tests positive for Covid -19, and cooperate with NYC contact tracing efforts
- Establishments pay strict adherence to NYC health and safety requirements for retail shopping and in-store protocol
